

No manual lifting from the floor.

1. Call “Code Yellow” to notify staff of fallen resident.
2. Make resident as comfortable as possible (pillow, blanket, etc)
3. RN/LPN assesses resident for injury.
4. Based on assessment, either resident can safely stand up on their own, or staff uses Maxi lift for transfer off floor, or staff calls 911 for emergency transport to hospital. (Maxislide will be used if resident needs repositioning in tight area in order to use lift.)
